Hi, I am
Kelly Núñez
(33)

Multidisciplinary creative leader with over **10 years of experience** integrating **strategic branding**, user-centered **UI/UX design**, and **front-end development**. Experience leading multidisciplinary design and development teams **in software environments**, applying agile methodologies and collaboration tools to deliver high-impact digital products.

My technical expertise encompasses frameworks and environments such as React.js, Vue.js, TypeScript, and Node.js, along with style libraries (Tailwind CSS, Bootstrap, Material UI, Materialize) and version control tools (GitHub). I integrate SEO optimization at every stage to ensure aesthetically pleasing, functional solutions focused on delivering a superior user experience.
